

MICHALIS BAFALOUKOS

SUMMARY Through nearly a decade of experience teaching Mathematics and Physics, I've developed a strong ability to break down complex ideas, foster critical thinking, and adapt to diverse learners. I'm excited to bring these skills into technology and analyze, develop and maintain custom software solutions that solve large scale problems.

TECHNOLOGIES JavaScript, HTML/CSS, Python, SQL, R, Java, C#

EXPERIENCE **MATH & PHYSICS**

07/2015 – Current as a Freelancer

10/2019 – 07/2023 – Tuition Center Pyrforos

Supported 100+ students in Mathematics and Physics by clarifying complex concepts, reinforcing fundamental knowledge, and building confidence through structured practice across school and university level curricula.

WEB DEVELOPER, FREELANCE

12/2024 - Current

Designed and built websites and web applications with a focus on performance and intuitive user experience. Using modern JavaScript technologies and WordPress deliver tailored digital solutions that align with each client's needs and goals. Currently owning and managing 4 production websites.

SOFTWARE DEVELOPMENT INTERNSHIP

08/2024 – 10/2024

Developed web applications using JavaScript frameworks, focusing on performance, responsiveness, and intuitive UI/UX. Also worked extensively with WordPress, supporting website development, customization, and maintenance.

EDUCATION **APPLIED MATHEMATICAL AND PHYSICAL SCIENCES - NTUA**

Computer Science & Statistics - Equivalent to an Integrated Master's Degree.

Thesis: Embeddings of metric spaces into normed spaces and computer science applications.

SEMINARS **REGENERATION** – Full Stack Web Development - 05/2026

KNOWCRUNCH – Ai Marketing & Production - 05/2026

UDEMY- Web Development: JavaScript and AI Essentials - 10/2025

IBM – COURSERA - Python for Data Science and AI – 5/2024
